Appendix A - Fees Act.....	34
-----------------------------------	-----------

INTRODUCTION

The *Fees Act* (see **Appendix A**) received Royal assent in the spring of 2008. This legislation, which applies to Part I of the public service, established a transparent process governing fees charged by government departments.

It requires detailed information to be made public on all upcoming fee increases and all new fees at least 60 days before implementation by government departments.

The act also specifies that, by January 31st each year, the Minister of Finance must file a document containing such information with the Clerk of the Legislative Assembly. The 2011 document contains detailed information regarding new fees and fee increases planned by government departments for the upcoming fiscal year of 2011-2012.

The report also includes information such as the legal authority to charge each fee, the current fee amount, the new fee amount, effective date of the change, revenue details, and departmental contact information.

The first section in the 2011 report summarizes fee changes and/or new fees approved by the provincial Board of Management since publication of the 2010 report.

The second section summarizes upcoming fee changes and/or new fees approved by the Board of Management for the fiscal year 2011-2012. In keeping with the requirement of 60-day minimum notice to the public, none of these fees will take effect until at least April 1st, 2011.

It should be noted that the *Fees Act* does allow a department to create or increase fees *during* the upcoming fiscal year. If this occurs, the individual department will file a document with the Clerk of the Legislative Assembly containing the same type of details as are included in this report. The fee change is also subject to the requirement of a minimum 60-day notice to the public.

If there are any mid-year changes, the details of these single filings will be summarized and published in the 2012 report on fees. This compilation will maintain accuracy and transparency concerning fees.

The report also includes information about a few fees being decreased or eliminated.

How to Read this Report

Section 3(2) of the *Fees Act* requires this *Annual Report on Fees* to present the following information for new and increased fees proposed for the next fiscal year:

- (a) the name of the department that proposed the fee
- (b) the name of the fee
- (c) the legislative authority for the fee
- (d) the amount of the current fee, if any
- (e) the amount of the new fee or the increased fee
- (f) the effective date for the new fee or the increased fee
- (g) the total annual revenue expected from the fee
- (h) the change in the annual revenue expected from the fee, and
- (i) the name of the contact person.

In this report, the above information is presented in the following format:

Department Name Contact: Name, Telephone Number (506)	Insert name of the Fee Insert <i>Name of the Act</i> Insert Regulation Number
Current Fee: \$X Proposed Fee: \$Y Effective Date: Month, Day, Year	New Annual Revenue Estimate: \$AA,AAA Change in Annual Revenue: \$B,BBB
Comments:	

Readers should note that “New Annual Revenue Estimate” presents the total expected revenue from the fee at the proposed or increased rate for the upcoming fiscal year. “Change in Annual Revenue” indicates how much additional annual revenue is expected per fiscal year from the new fee rate, as opposed to the prior rate.

While the Minister of Finance is responsible to file this document each January with the Clerk of the Legislative Assembly, information about particular fees should always be obtained from the specific departments and contacts listed in the description of each fee.

This document, and future editions, will be posted in the Publications section of the finance department’s Web site at <http://www.gnb.ca/0024/index-e.asp>

General information about fees charged by all government departments is available on the government’s Web-based Directory of Services. This directory is located at <http://www2.gnb.ca/content/gnb/en/services.html> (Key word: fees)

FEE CHANGES TAKING EFFECT BEFORE APRIL 1, 2011

Department of Health	Class 5 Abattoir Licence <i>Public Health Act</i> Regulation 2009-138
Contact: Tracey Burkhardt, (506) 444-4583	
Current Fee: \$450 Proposed Fee: \$225 Effective Date: June 15, 2010	New Annual Revenue Estimate: \$6,750 Change in Annual Revenue: (\$6,750)
Comments: After further review, the Department of Health determined that the total work required for abattoir inspections is similar to the work associated with Class 4 food premises. Therefore, it was decided to make the fee equivalent to Class 4 licences.	

Department of Health	<i>Personal Health Information Privacy and Access Act</i> Regulation 2010-112
Contact: Sara Smallwood, (506) 453-8663	
Current Fee: N/A Proposed Fee: See Schedule Effective Date: September 1, 2010	New Annual Revenue Estimate: Less than \$1,000 Change in Annual Revenue: Less than \$1,000
Comments: These fees are designed to recover a portion of the costs of processing a request for access under the new <i>Personal Health Information Privacy and Access Act</i> , once it is fully enacted. Estimated revenue is minimal since the first two hours of search and preparation will be free, and a custodian may waive the payment of either all or part of the fee in accordance with the regulation. Given the difficulty in estimating the number of requests that will be made for personal health information through the new process, some experience will be required before a relevant estimate can be made.

One \$15 fee will replace the existing fee amounts.</p> <p>** Revenue collected from this licence fee is anticipated to be \$26,000 annually, but will not increase revenue to the Province as it will be deposited into the Animal Protection Account for use by the New Brunswick Society for the Prevention of Cruelty to Animals.</p>

Proposed Fee: See Schedule	
Effective Date: April 1, 2010	Change in Annual Revenue: (\$1,000,000)
<p>Comments: The Department of Natural Resources tracked monthly finished product market indices throughout the 2009 calendar year. Crown Fair Market Value rates are adjusted annually based on the change in market indices for each product. The 2010-2011 rates reflect the change in market value of the listed forest products during that timeframe. Forest products value as a whole continued to decline with the slowdown in the world economy.</p>

Current Fee: See Schedule Proposed Fee: See Schedule Effective Date: April 1, 2011	New Annual Revenue Estimate: \$68,380 Change in Annual Revenue: \$5,600
Comments: Fees for Provincial Dairy Laboratory services, provided to dairy producers and processors in the province, have not increased since April 1, 2005. However, the costs of providing these services have increased due to the rising costs of inputs, such as salaries, laboratory materials, and equipment. Two analyses (herd tests and antibiotic testing) account for over 99% of revenues. Since these tests serve public health, government, and industry needs, full cost recovery is not applicable. The level of cost recovery is approximately 80% for these and other fees.

These handling fees are paid directly to the redemption centres without government involvement. The increase in the handling fees means that beverage distributors will be paying more to the redemption centres. The change will not increase revenues to government.</p> <p>There are currently 78 beverage container redemption centres processing approximately 305 million empty beverage containers annually.</p>
